Proposed Solution Comparison Chart

	Birdhouse	Birdfeeder	Planted Trees
Cost	Low	Medium	High
Time	Low	Medium	High
Benefits	▪ Provides living space for one cardinal ▪ Provides protected space for nesting	▪ Provides food ▪ Will attract cardinals back to the environment	▪ Provide living space for many cardinals ▪ Are a natural habitat ▪ Provide food for cardinals
Drawbacks	▪ Is an artificial habitat ▪ May not attract cardinals ▪ Is easily knocked over, which could hurt cardinals	▪ Must be refilled often by humans ▪ May attract other animals, such as squirrels and bears	▪ Will take several years for trees to grow ▪ Require care by humans until fully grown
